

PANEL ASSEMBLY

UL 508A and UL NNNY Certified
Panel Assembly

Improved Performance Starts Here™

Certified Panel Assembly Shop

Complex systems require robust controls. Hotstart Panel Assembly services include the design and assembly of UL 508A and UL NNNY listed industrial control panels. Hotstart integrates power, controls, relays, motors, interfaces and other components into various rated boxes depending on the ingress protection or hazardous location requirements.

Over 75 years of complete manufacturing from design to delivery has been the foundation of Hotstart's success. Our vertically integrated manufacturing and production capabilities allow for custom engineered designs, fabricated components, and complete finished systems for Original Equipment Manufacturers.

INDUSTRIES SERVED:

- Advanced Power Systems
- Energy Storage System Controls
- Solar Power Generation
- Fuel Cell Controls
- Industrial Process Controls
- Thermal Management Controls
